

## FOOTLIGHTS AND FILMS

### WATSON GIRLS AT PAN TODAY

**Rich Comedy Can Be Expected — Whole Bill Is Very High Class**

**BEST PLANE VICTORY TO WATSON SISTERS**  
"I certainly am ashamed about the way you acted last night at that foolish party," said Mrs. Watson. "It was goodness when I ordered a home's name to drink when you did. I will take care of her next time."

"Well," replied Kitty, "I didn't see any reason why we shouldn't have horses."

Such is the bawling sample of the rich comedy that Edmonton vaudeville patrons can expect from the Watson Sisters in their first "Pan's Day" engagement at the Pantages this afternoon. They are also hitting the town in style, however, today, and as box office attractions are, it is safe to say, the Watsons are ahead. The Watsons set a new house record in Edmonton last year when they were here, and indications are that the city and indications are that the 1922 figures will be surpassed.

With many of the city's best fan makers of the first rank, they are now making up the bill for the opening of the Paris world of fashion.

A big surprise is in order, however, as the Watsons will be joined by Tripp and Mowat, a trio of talented young men. It is a fact that the two stars, through their manipulations, presented in whirlwind tempo. Another added attraction is the famous "Monarch and A.M." in which Howard Anderson and Dean Graves, incidentally, are made up to look like the high cost of living by taking up housekeeping quite

in a captive balloon. The scheme does not work out as was intended, and is productive of some real comedy.

A very attractive program or imitation of the title of "Studying Stars" by Paul Draper and Gladys Stewart, opening act is provided by Goldie and Eddie, and in addition to the vaudeville, the eighth matinee of the popular chapter play "The Telephone Girl" will be screened.

There are still seats available for the engagement of the Watson Sisters, but early reservations will be advised.

### DOUGLAS MACLEAN CLEAN CUT ACTOR

Douglas MacLean, one of the rich comedy stars who have been given to star turns up pictures has, since he took up pictures has, in his methods or suggestive "gags" or comedy, has had great success. He is now competing in the making of a comedy picture, "Going Up," which is being shot with the Watson Sisters. Needless to say, though, MacLean has never before attempted to make a picture.

"The actor can rise above the material in which he appears," is the opinion of MacLean, "but it is the writing and the screen. I have been demonstrating this to the public."

JACK HOKXIE HAS AN  
EXCITING ADVENTURE

What happened during the night when Captain Hoxsie overcame in western blaxks is coupled with a sequence of dramatic events. Jack Hoxsie, feature produced by the Universal Pictures Company, is due to open the Monarch beginning Thursday this week.

The story is as follows:

"A good picture cannot make a success of a bad story. That is the secret power to make it entirely successful. I have been able to rise very far above the story in which I appeared. I am free with my stars, and a particular picture is good but that does not mean that it is a good story and fail to entertain. It is small consolation for a star to appear in a picture which has passed him by, but his personal notices are favorable."

Green vegetables, which supply the source of iodine,

## THOUSANDS AT A.S. CARNIVAL

Was Opened Last Night at  
Riverview Pavilion—Plenty  
of Entertainment

The All Saints Men's Club three-day carnival, held last night at the Riverview Pavilion, opened last night over 2,000 people crowded the dance floor showing Louis during the three days.

Tipp's eight-piece orchestra provided the entertainment throughout the evening. Nine booths were open, the church taking the home needlework booth, the men's club taking the rest. Such attractions as "Ring the Bell," "Hokey-Pokey," etc., were well patronized throughout the evening.

Many other attractions were offered, including a game booth, a booth for the benefit of the Red Cross, and a booth for the benefit of the Canadian Legion.

Lowell Sherman, who plays the part of Louis XV, in "Monsieur Beaucaire," was the attraction of the day.

Misses Daniels and Lois Wilson, in a costume made of fine silk, have risen to stardom over merit, and since they took up pictures have been appearing in various films.

MacLean has never before attempted to make a picture, but he has done a creditable job.

"The actor can rise above the material in which he appears," is the opinion of MacLean, "but it is the writing and the screen which do the trick."

MacLean has never before attempted to make a picture, but he has done a creditable job.

# UP-TO-DATE NEWS FROM PROVINCIAL POINTS

## DISCOVER DEPOSIT HIGH-GRADE ASPHALT NEAR LAC LA NONNE

**Extent of Deposit Is Not Known at Present—Outcroppings Over Large Area Indicate Considerable Quantity of the Material—Tests Have Been Made**

(By Bulletin Correspondent)

LAC LA NONNE, Oct. 21.—A bed of high grade asphalt has been discovered in the Lac La Nonne area by Joseph Tritoff on his farm three miles from the site of the Nahaman oil field. The asphalt beds were started some years ago.

As yet there is no indication of the extent of the deposit, but it is believed that a fairly large area is underlaid with asphalt, which is of an exceptionally high quality, as is shown by tests made which indicate that it contains 80 per cent asphalt, 10 per cent pure asphalt, which is nearly three times as much as the present in the Fort McMurray tar sands.

**Tests Were Made**

The discovery was made some years ago by Mr. Tritoff, but no announcement was made until recently, when he had tests made of some of the asphalt. Whether he had some reason for keeping the discovery secret, or merely thought it a very small find, is not known.

The first evidence of the deposit was found by Mr. Tritoff while digging a well.

A thorough investigation has been made by the correspondents, who have learned that the deposit covers a fairly large area. There are other asphalt beds in the same places, and one which was followed for a depth of six feet measured four feet thick. The asphalt is a product seems to be the same in all parts of the area.

**Miles Very Easy**

The tar makes readily when placed near a fire, and when it is heated it chaps off with an ease, having hardness of a pencil. It can be heated near a fire for a short time. It soon becomes a very thick mass and when it is heated it will melt and boil with a large flame, leaving a cloud of smoke.

The results throughout the districts are very much excited over the discovery, and the people are anxious to know on which the asphalt was found.

The deposit is about one-half mile south of Lac La Nonne, and is just west of the road to the Canadian National line which runs from Oneoway to Gunn.

**HERB PHROPHECY.**

"Terence Jack proposed to me this morning."

"Augustus—" Did you accept him?" "Yes."

"Then your prophecy has come true."

"What prophesy?"

"Why, last night you said Jack was foolish enough to do something."

**WORKING GIRL'S EXPERIENCE**

**Read how She Found Help in Lydia E. Pinkham's Vegetable Compound**

EDGERTON, Oct. 21.—Must write and tell you all about Lydia E. Pinkham's Vegetable Compound.

I am from Ontario, 14, must write and tell you all about Lydia E. Pinkham's Vegetable Compound. I was sick with a bad cold and would be at home at least one day each week. I was treated by the doctor and he told me I had to see to do me any good. I was told to take a rest and was unable to do so, kept on working. I was very tired and bled mostly with my periods. I would sometimes faint and feel like I was going to die. When it came it would last around two weeks, and I would have such pain in my head, right side, that I could hardly walk. I am only 19 years of age and weigh 115 pounds now, after taking Lydia E. Pinkham's Vegetable Compound I was only 108 pounds. I was very weak and tired. My friends told me about Lydia E. Pinkham's Vegetable Compound, and when I took it I was very much relieved. A change. My mother has been taking it for a different ailment and has found it very good. I am writing to tell my friends about the medicine and to let them ask about it.

—Miss HAZEL MCKEE, 16, 100, Arnprior, Ontario.

A day out each week was about the maximum time I could withstand it in some ways, indicated by a run-down, tired feelings, pains and irregularity. I tried Lydia E. Pinkham's Vegetable Compound help you.

## Grain Crops Nearly All Threshed In Edgerton District

(By Bulletin Correspondent)

EDGERTON, Oct. 20.—Quite a number of threshing outfits have finished the fall run and the few that are still out will finish their run this week. The weather has been unusually cool and so far for some time past, with the result that very good headway was made in cleaning off the stubble.

## E. J. TENNANT OF EDGERTON DIES

**Had Lived in the District Several Years—Was Prosperous Farmer**

(By Bulletin Correspondent)

EDGERTON, Oct. 20.—After a period of sickness, Edward J. Tennant died at his home on Saturday evening, October 19, at the age of 60 years. He had been a district citizen for about 14 years and had a very choice section of land. They have never experienced a crop failure.

Died was a staunch member of the church and a good specimen of manhood. The funeral was held at the home of Langley Prairie, Oct. 20, and Dapp was there on business, a guest of the deceased.

Mr. Tennant had been engaged in the formation of the cemetery and the church, and was a good friend of the friends of the deceased who came to pay their last respects to a true son of the soil.

Three brothers and a sister are Mrs. Rogers and family and Mrs. Devittion and family, who were most anxious to have the deceased returned to the home town and had been greatly benefited by the trip.

**WHAT PROPHESY?**

"Terence Jack proposed to me this morning."

"Augustus—" Did you accept him?" "Yes."

"Then your prophecy has come true."

"What prophesy?"

"Why, last night you said Jack was foolish enough to do something."

**MAKE GOOD PROGRESS FROG CREEK BRIDGE**

**Have First Pier of Bridge Up and Are Now Putting the Second**

(By Bulletin Correspondent)

FROG CREEK, Oct. 21.—The bridge workers have put the first pier of the new bridge up and are now putting the second one. The work is coming on as well as can be expected considering the conditions that have to be met.

**WOLFE'S AROMATIC SCHIEDAM SCHNAPPS**

(NEDERLAND GIN—BOTTLED AND BOTTLED IN AMERICA)

Wolfe's Schnapps is unequalled in its beneficial effect on the Liver, Kidneys and other organs. The finest spirit obtainable—Wolfe's Schnapps is of distinct medicinal benefit.

**Take home a bottle today of this superior Hollands Gin**

**RED DEER GROCERY HAS NEW MANAGER**

(By Bulletin Correspondent)

RED DEER, Oct. 22.—Gill will have a new manager in the person of the staff of the Red Deer Grocery Store, Mr. W. H. Gill, who is manager of the company. Friends and acquaintances in Red Deer warmly congratulate Mr. Gill on his advancement.

## PRINCE'S RANCH AT HIGH RIVER

The ranch house and other buildings on the E-P Ranch at High River.

## FROG LAKE FARMER IS INJURED PLOWING

**Rib Is Broken When Plow Hit His Side—is Recovering Splendidly**

(By Bulletin Correspondent)

FROG LAKE, Oct. 22.—Harvey Rib was broken when a plow struck him when the "cow hit his side." He is feeling quite well again and was able to get back to work on his farm.

C. Cleland was removed from his home by his wife and son, who were also present, because of the severe pain he was experiencing caused by a cat bite on the finger. The family have also obtained medical aid from Dr. Mc Gregor, his brother until he recovers fully.

Mr. McGregor has treated his star car for a new model Star, and the car is in excellent condition.

A Hallownell dance will be held in the Arville hall on October 31.

**CHERHILL CROPS BEING STACKED**

**Several Threshing Machines Are Working in District Some Grain Is Tough**

(By Bulletin Correspondent)

CHERHILL, Oct. 22.—The wheat harvest is well along and the farmers are making good use of their time.

P. K. Knight has been busy threshing out 10 bushels to the acre, and is doing a good job.

Three more lots were sold in the town last week. Hotel has been granted a beer license.

Several threshing outfits are busy stacking grain received yesterday.

Mr. Brant has been working hard here and this year is no exception.

The town has a busy vacation and the people are having a good time.

Mr. Slesher who was married last summer intend to settle in Spokane, Wash., and will go there next month.

Miss E. Pannell of Sangudo is visiting with Mrs. Anderson, who is the new district inspector, was recently through with her work.

THURSDAY, OCTOBER 23, 1924

**ONCE BITTEN, TWICE SHY.**

The Winnipeg Trades and Labor council is organizing a branch of the Canadian Labor party, but is excluding members of the O.R.U., from the organizing convention. But the Canadian Labor Party in Edmonton is holding a constitutional convention for next Saturday's provincial Legislature. Winnipeg was the headquarters of the "general strike" by which it was attempted a few years ago to set up a soviet rule in western Canada. Apparently the organized wage earners there have learned that the farther they keep away from radicals the better off they are.

**THE ALBERTA AUTUMN.**

Alberta, it is in order to note, is mounting out a peculiar and in many ways an adverse, season by a "spell" of fall weather that could not be beaten anywhere and is sending rivulets elsewhere. The rainy season was dry, and the ripening period wet, but the Alberta autumn is bringing the reverse for the delayed harvest. More enervating weather, or weather more suited for the threshing and marketing of the crop, could not be imagined. That the farmers are making the best use of the opportunity is apparent everywhere, though the harvest is now less than three days and the amount of grain to the elevators is down in volume. Another month of such weather would be worth millions to the people of the province.

**GUARANTEE NOT NEEDED.**

The Soviet minister of finance says Moscow can get along without the guarantee of credits from abroad, given to him by MacDonald's Government in the treaty recently concluded with Great Britain. British and other foreign bankers, he says, are prepared to make Russia a loan in the event the treaty is not ratified. MacDonald may be asked to consent to his remarks at this stage in the proceedings. If the Soviet can get the credit it needs to resume trade relations from private sources there is no occasion for making the British taxpayer bear the responsibility. All that is needed is that the country open which Edmonton depends for support. And ask for sanction of his proposal that these railways be turned over to one or other of the transcontinental systems at any price—so long as the railway is paid for by the public.

If Edmonton voters want to repudiate the idea of encouraging railway construction in the north country, and to endorse the principle of "handing over public property at bargain prices" to the transcontinental railroads, then they have the opportunity of doing so. If they want railways built through the undeveloped sections of the northland, and do not want to throw away half the railway system in the process, they may have to say "no" to voting for the candidate of the party whose policy built these roads and whose policy is to make them pay their way and to build other roads as conditions admit.

**THE RAILWAY QUESTION.**

Mr. Ewing continues to appeal for the votes of Edmonton electors by conducting a personal campaign, but it is not clear what the country up which Edmonton depends for support. And ask for sanction of his proposal that these railways be turned over to one or other of the transcontinental systems at any price—so long as the railway is paid for by the public.

If Edmonton voters want to repudiate the idea of encouraging railway construction in the north country, and to endorse the principle of "handing over public property at bargain prices" to the transcontinental railroads, then they have the opportunity of doing so. If they want railways built through the undeveloped sections of the northland, and do not want to throw away half the railway system in the process, they may have to say "no" to voting for the candidate of the party whose policy built these roads and whose policy is to make them pay their way and to build other roads as conditions admit.

**WHERE THE "KLAN" FAILS.**

The police at Detroit had to use tear bombs to disperse a Ku Klux mob. That the organization has established itself in the great industrial centers of the country is a fact. It is also a circumstance in which people of the Dominion cannot remain indifferent. There will of course be demands that the authorities on this side of the line keep vigilant watch against the invader of our freedom. But the more effective way to ban the Klan from Canada is to prevent the development of the conditions under which it thrives. The Klan never has gained a foothold where law was violated, where the public conscience did not care to do its duty. It is to practice a criminal, cowardly, revolutionary and tyrannous organization. But its appeal for membership is made on the ground that the public authority does not enforce law, and that justice does not prevail. It is to practice action on the part of private citizens. Where that is not more or less true the Klan organizers cannot get recruits.

**THE "NATIONAL" PLANS**

The public school board is in receipt of the welcome information from the Minister of Education that the main object of the "National" plan is to provide for the Queen's Avenue school will not be forthcoming for some time, perhaps for four or five years. That, of course, makes it unnecessary to proceed at once with the building of a new building. It would be supposed that the board will continue to occupy the school until the money is paid over. While the building is an old one and not well equipped, the accommodation will be as good as it would have been had no improvement been made with the National.

The more serious matter is the inference that the National management does not propose to proceed with the erection of the new station building. The station, the extension across the railway five years in which to complete its readjustments there was a very general expectation and a very lively hope that work would be started on the new depot next summer. The extension of the station went a good way to recommend the bargain to the taxpayers and was a considerable factor in securing its ratification. It was rather doubtful if the burgesses would have consented to the extension of the station and several other streets immediately in return for a promise that a new station would be built four or five years hence. That feature of the transaction is one which might well be put before the National directors by the city council in a somewhat urgent way.

**THE ISSUE IN BRITAIN.**

It must keep the voter in Great Britain in mind that he is voting for what it is that he is voting for or against. The election was called because the opposition groups voted down the Government for having stopped prosecution of a communist member of Parliament. The Labour party seems to have got little or no attention on the platform. The treaty with Moscow promptly supplanted it as the subject of controversy. Now the reports are that the triangular fight has begun between the Labour party, which is devoting attention to the record, composition and aims of the others, with the Manchester Guardian insisting that free trade versus protection is the real bone of contention.

It is probably not far wrong to say that the Labour party is the most statist tendency of the labor party, and that the verdict will express the judgment of the electors on the socialist principle rather than their opinion on any particular act of omission or commission of the Conservative party. Donald Government. If the people of the old lands want to try the experiment of socialist government, the MacDonald Ministry is perhaps as good an instrument for the purpose as anything else. If the people of the old lands gain by the terms of the theory the Government will be beaten, without regard to its actual record. The Ministers are less keen for what they would have done if they had been in power than for what they did in office. The Government cannot be said that the Government is discredited because of its record. But it cannot be doubted that it is suspected because of its associations. His pre-election declarations, his statements of principles, his stand toward subsidies for "nationalized" industries. From present appearances the responses from the party, if it is decisive at all, will be either a repudiation of radicalism "root and branch" or a warrant for a plunge in the general direction of communism.

**Current Comment**

**THE PRESIDENTIAL ELECTION.**

Europe may regard the situation with equanimity because all newspaper correspondents on the other side of the Atlantic are agreed that the most important matter is a battle to the hemisphere who becomes President of the United States, as under circumstances like those of today, the European responsibilities in the face of settled and decided policies of the two powers towards people around any such policies.

**THE LEAGUE AND WAH.**

Chicago Tribune:

The three-legged war in China between Chiang, the God of War in Georgia and Trans-Caucasia, and the Spanish was with the Moscovites. The League to prevent war could seem, with the League to prevent war, to have been the simple suggestion of the League with its good books, good music and high standard of living with our fellow men. What a pity that the League has become so highly subsidized, almost vulgarly amateurish.

**BEAUTY, THE CIVILIZER.**

Beauty is the universal heritage. We derive great masses of people of all ages from the beauty of nature that in so doing we derive ourselves, and that which ranges in esthetic growth and development has filled our lives with the simple sights of beauty, good music and good books, good music and high standard of living with our fellow men. What a pity that the League has become so highly subsidized, almost vulgarly amateurish.

**THE ANGLO-RUSSIAN TREATY.**

London Times:

This strange treaty has been signed. It cannot be ratified until Parliament gives its assent. The guarantee of a loan of which the dimensions and amount of which is not disclosed, by authority government, is thrusting upon a very unevenly balanced Parliament this incredible task, which to begin with the possibilities

To the Editor of The Bulletin:  
On your front page you say: "At a recent meeting at Alberta Avenue last night, in the course of which a speaker addressed the audience, it was voted that the Alberta Avenue Critical Audience be disbanded." Will you tell me what is meant by this?

Alberta Avenue, Oct. 21, 1924.

proceed to analyze his figures in relation to the proposed bill. Will you tell your readers whether the enormous sum of \$25,000,000 actually represents the cost of the proposed bill? When he has done this we can accept his statement as to prosperity.

The fact of the matter is this: That every farmer knows full well that he can't afford to pay \$25,000,000 in existing conditions would pay?" (Editor, P. 113.)

At the recently held labour meeting in their local hall the Modemists at their local hall at the range road, were asked to vote on the five hundred yard line and they fell down as a result of the losses will denote two sacks of flour to the hospital.

Sir Harry Thornton is performing definite national services along several lines. He is doing his best to help in finally in lessening the heavy deficit in the Canadian National Railways. His efforts in this direction are well known. In his letter to the Canadian National Railways he says: "I would study the report of the U.S. Commission on the economic basis of the various farmer movements he would find ample evidence to substantiate my case."

Young trip.
